

Emergency Supplies and Allergy Notification

Child's Name _____

As part of our enrollment procedure, parents will be asked to pay every year a fee which is included in the registration and re-registration per child. This money is used to supply our center with the sufficient food, water, blankets, and other supplies in case of a major earthquake or other disaster.

Please check the following list of ingredients to be sure your child is not allergic to any of them. If he or she is allergic to any of these supplies, please contact our office to make other arrangements in case of an emergency. Please check items to which your child has an allergy:

- Wheat Flour
- Vegetable Shortening
- Sugar Cane
- Water
- Coconut
- Salt

If your child is in need of special medication on a daily basis, please list them in the space below and notify our office.

- My child is not allergic to any of the above at this time. If anything changes at a later date, I understand it is my responsibility to notify the school office and my child's teacher.
